

## Turtle

1, 12 oz. package caramels

1 can sweetened condensed milk

1 tsp. vanilla

1, 8 oz. canister SACO Dolci frutta

Pecan Halves, intact

On medium heat, place caramels in saucepan with sweetened condensed milk and vanilla. Melt completely and allow to cool for 30 minutes. Place waxed paper on flat surface that you can carry. Place 5 pecan halves in a circular shape, as you see in the image, with ends all meeting in the middle. Place large Tablespoonful of caramel on center of where the pecans meet, allowing to ooze over sides. Allow caramel to set; about 1 hour. Melt Dolci frutta according to package directions. Pour 1 to 2 Tablespoon of melted Dolci frutta over caramel, again allowing it to ooze over sides. For quicker drying time, place finished turtles in refrigerator.
